

Consult with a counselor regarding ways to fulfill the subject requirement deficiency.

Admission to a California State University campus does not guarantee admission to the major department or college on that campus.

REQUIREMENTS FOR THE BACHELOR'S DEGREE

The degree requirements at a California State University campus consist, in general, of three parts: first, the General Education Requirements, which are required of all degree candidates; second, the Major Department Requirements, which are a part of the student field of specialization; and third electives. Students with high-unit majors should take electives after transfer.

These requirements are classified in two levels: Lower Division and Upper Division. Students may complete most of the lower division requirements in the major and all of the lower division in the general education pattern at Los Angeles City College.

TRANSFER INFORMATION

University of California (UC) & California State University (CSU) General Education Articulation Agreements

The California State University (CSU) delegates authority to Los Angeles City College to identify courses applicable towards the CSU curriculum:

1. Courses that transfer for Baccalaureate credit;
2. Courses that fulfill CSU lower division General Education-Breadth requirements;
3. Courses that fulfill the United States history, constitution and American ideals requirements.

Up to 39 or the 48 General Education-Breadth units required for the Baccalaureate Degree can be transferred from Los Angeles City College. Students who are certified with 39 semester units of lower division General Education-Breadth units will be required to complete a minimum of 9 semester units of upper division General Education work after transfer. Students completing this pattern must complete the nine (9) units in Area A with a "C" grade or better in each course and a "C" grade or better in mathematics, Area B3. Students must also complete 30 units taken from Area B through Area E.

The California State University assigns a high priority to Los Angeles City College transfer students who have completed the first two years of their Baccalaureate program (60-70 units). Los Angeles City College students transferring with 60 units minimum enter at junior level standing and may enter their major upper division work if all prerequisites have been completed. Executive Order 595, General Education Requirements, Office of the Chancellor, California State University, establishes that all students must fulfill the requirements. Previous General Education requirements will not carry catalog rights after January 1994. IGETC units will be certified by the graduation clerks when verified by LACC Counselors. Pass Along will be honored from other community colleges for courses approved for the IGETC.

An alternative to the lower division requirements stated above is the Intersegmental General Education Transfer Curriculum (IGETC). IGETC requires completion of a minimum of 37 semester units of lower division work with a "C" grade or better

in each course completed. Students must complete all areas to become certified.

You must complete the IGETC before transferring. This is an all or none situation. (Completion and certification of the IGETC may not fulfill the Admissions Requirements for the UC or CSU.)

Completion of the IGETC will permit a student to transfer from Los Angeles City College to a campus in either the California State University or University of California system without the need, after transfer, to take additional lower-division General Education courses to satisfy the university General Education requirements.

Completion of the IGETC is not a requirement for transfer to CSU or UC, nor is it the only way to fulfill the lower-division General Education requirements of the CSU or UC prior to transfer. Depending on a student major and field of interest, the student may find it better to take courses fulfilling the CSU General Education requirements or those of the UC campus to which the student plans to transfer. Students pursuing majors that require extensive lower-division preparation (such as Engineering or Biology) may not find the IGETC option to be advantageous.

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC) POLICY

Completion of all of the requirements in the Intersegmental General Education Transfer Curriculum will permit a student to transfer from Los Angeles City College to a campus in either the California State University or University of California system without the need, after transfer, to take additional lower-division, General Education courses to satisfy campus General Education requirements.

The course requirements for all areas must be completed before the IGETC can be certified. All courses must be completed with grades of "C" or better.

IGETC units will be certified by the graduation clerks when verified by LACC Counselors. Pass Along will be honored from other community colleges for courses approved for the IGETC.

You must complete the IGETC before transferring. (Completion and certification of the IGETC may not fulfill the Admissions Requirements for the UC or CSU.)

CSU GENERAL EDUCATION CERTIFICATION

Listed below are the requirements for California State University (CSU) General Education certification policy for students transferring to one of the 23 CSU campuses and petitioning for full or partial certification from Los Angeles City College. (Please read carefully.)

1. Students transferring from Los Angeles City College must submit a petition for full or partial certification to the LACC graduation office.
2. Students fully or Area D certified by Los Angeles City College or by Pass Along status, may double count the requirements for United States History, Constitution, and American Ideals.
3. Students must complete all requirements stipulated in Areas A, B, C, D, E for full certification.
4. Students may receive partial certification by fulfilling requirements stipulated in each Area. ONLY the area will be certified, not individual courses.
5. Students should submit a Certification Petition for certification when requesting their transcript or when requesting the graduation check for the Associate Degree.
6. Students with high unit majors (i.e., Biological Sciences, Engineering) may be granted exceptions to the full certification requirements by the CSU campus. Students seeking transfer under this provision shall be responsible for requesting verification from the transferring institution.
7. Pass Along Policy: Courses taken at other institutions (including California Community Colleges outside the Los Angeles Community College District) that have been approved for certification by the California State University system may be given Pass Along status. Please consult with a College Counselor regarding approved courses to receive Pass Along.

CAL STATE UNIVERSITY LOS ANGELES (CSULA) MAJOR DEPARTMENT REQUIREMENTS

The specific major course requirements for CSULA can be located on the web at www.assist.org “Articulation by Major.”

INDEPENDENT CALIFORNIA COLLEGES AND UNIVERSITIES

California fully accredited independent colleges and universities provide a wide range of options at undergraduate, graduate and professional levels for students planning to continue their education beyond community college.

ADMISSION POLICIES

Students who transfer to independent colleges or universities find they are given academic credit for most, if not all, of their community college studies.

Virtually all institutions give full credit for General Education courses and usually other courses designated for transfer by the community college.

Articulation agreements for General Education requirements and some major requirements may be obtained from the LACC Counseling Center. The Center maintains information
